

## Chemical Vocation "Blackhole Scenery"

Visit "[Blackhole Scenery](#)" on MotoLyrics.com

Lights out, it falls  
Out of a puddle of blood  
I rise, Weak & out of reach  
IÂ´m ashamed, dead, I wish you where dead.  
IÂ´m just a child.  
And IÂ´m crying (like one)  
No you wonÂ´t deny this.  
Motherfucker

Like an angel left to die  
(I was left there with this.?)  
No more words I gave up the fight  
(No way IÂ´ll give up this time)

From birth I was deceived.  
Mocked Â´til love seemed like shit.

And beauty was just a word.  
IÂ´m better than you I always was  
LightÂ´'s on, iÂ´m scared  
ItÂ´'s sinful & repulsive.  
Why would anyone want to hurt  
(Unrevealed secrets  
Comes crawling  
YouÂ´ll feel it boy)  
Me..?

Like an angel left to die  
No more words I gave up the fight

ItÂ´'s so fucked  
IÂ´m surreal  
ItÂ´'s so fucked  
IÂ´m surreal
