"You're Killing The Music"

My life was great until you came and ruined it,
because...
You were killing my music
With a smashing fucking hand, and now
Iâ€™m saying "stop youâ€™re killing the music!"
And god said something about freedom
But Iâ€™m saying "stop with the killing""stop with the
dying"
But you are killing my punk/rockmusic
And that is to much for me... so Die!
And then I keep asking me "whatâ€™s wrong with me"
And finally I get the answer, itâ€™s nothing wrong with
me
Itâ€™s something wrong with you!
Because... youâ€™re killing the music!
Again and again, but not anymore (not anymore)
(Not anymore) (not anymore)
NOT ANYMORE!
Because youâ€™re not here anymore.
