I can't wait 'till I see you baby
I can't wait 'till the night comes falling down
I gotta see you again
And even if it couldn't be forever
I'd trade a lifetime for this night together
Hold on hold on

CHORUS:

My heart is burning with the heat of this
Emotional fire
Every time I see you
I'm on fire, every time we touch
Can't you feel me burning with desire
Baby feel the warm, give me some
Emotional fire
Emotional fire€!

There's a feeling when I'm here beside you
Couldn't leave you and I wouldn't try to
Baby, I only need you again
There ain't nothing that can break this fever
The love gets stronger, and the passion deeper
Hold on hold on

I can't let go, 'cause there's no stopping this
Emotional fire
Every time I see you
I'm on fire, every time we touch
Can't you feel me burning with desire
Baby feel the warm, give me some
Emotional fire
Emotional fire€!

I can't wait until I see you baby
I can't wait 'till the night comes falling
Hold on hold on

Chorus
