Lord I haven't ask for anything
In such a long, long time
Not since that brand new party dress
When I was eight or nine
And I know the world's in such a stench
You got a lot to do
But if you ever find yourself
With a minute or two
Won'tcha please
[Chorus:]
Make the man love me
Ah make the man see
I'd be so good for him
If he'd start letting me
Come on now
Make the man love me
Ah make the man care
Just open up his heart, Lord
And I'll take it from there
Lord I know that he needs me
It's just he don't know
And my heart so full of him
It's gonna overflow
And so if you should have a miracle
You wanna do up right
Ah won'tcha take him by the hand
And show him the light
Won'tcha you please
[Chorus]
Oh I want him
Lord how I want him
To make some love to me
Won'tcha make him see
How sweet it could be
So come on come on now
[Chorus]
