I'll get up this morning
Read about all my plans
Read about vacations
With my latest man
Everything I did
What I should have done
Why I didn't stay
Why I didn't run

Only I hold the key
To unlock the door
I might make mistakes
I've made them before
Things I hear about
My life as a book
Things I'd rather forget
But they force me to look

Chorus
Mirror image - mirror image
If it isn't in black and white
(It never happened)
Mirror image - reflections of me
Do you see what I want you to see
Looking at my life
Through a mirror image
Through a mirror image

Verse
Must I confess
Everything that I've done
Can't a girl go out
And have herself some fun
I don't want to be judged
I don't want the blame
Living for today
Is how I play the game

There's always a dream
There's always a stage
Somebody's looking

Now it's on the front page
Through my rear view mirror
I can see where I've been
I forgot the beginning
And I can't see the end

Chorus

Mirror image - mirror image
If you see it in black and white
(Do you believe it?)
Mirror image - reflections of me
Do you see what I want you to see
Looking at my life
Through a mirror image
Through a mirror image

Bridge

You've got me wrong
That's not what I said
All of these stories
I'm reading instead
The party last night?
I thought I was in bed!
Mirror image
Mirror image

Repeat chorus
