Hear the coyote howl
He's found his pray at last
In one moment of weakness
The chase is over so fast

He celebrates his kill
No mercy in his eyes
When you're born with the hunger
The hunger never dies

Midnight is on the prowl
And I hear it call my name
Danger lurks in the shadows
But it's all part of a game

Until I quench this thirst
I will not close these eyes
When you're born with the hunger
The hunger never dies

You and I, we're the same
We both carry this flame
To depths of our souls
Once the fever awakes
We can never escape
It's beyond our control

We're both born with the hunger
Oh with the hunger

Temptation bites your lip
One kiss ignites the fire
So begins the seduction
As we succumb to desire

Your body aches for more
Why are you so surprised
When you're born with the hunger
The hunger never dies
When you're born with the hunger
The hunger - it never dies

Never dies

When you're born with the hunger It never dies
When you're born with the hunger Oh, it never dies

He celebrates the kill
You're born with the hunger
It never dies
