[Verse 1]

My man from the hood, yes he from the streets
Yeah I'm down cause he do anything for me
My man called me up, said he needed the range
I said what for, he said just come and get me babe
Hopped in the whip, real low key
Next thing I know he's r-running towards me
Hopped in the car, got the feeling of fear
Looked in the back, dim the lights in the rear

[Chorus]

Promise I'd risk my life (if he ask me)
Stand up in court and lie (if he ask me)
I'd even do time inside (if he ask me)
I'm always down to ride (if he ask me)

[Repeat 2x]

[Verse 2]

My girls kinda mad, but I don't give a damn
Cause I caught a case, but I did it for my man
I really don't care if they don't understand
Cause if I had the chance I would do it again
My so called friends turned they backs on me
When I needed them most tell me who did I see
My man was there to get my back on my feet
Giving me bread and all the love that I need

[Chorus]

[Instrumental Break]

[Chorus (repeat till end)]
