In n' out of relationships finding someone to share life with...

I'm unwilling and I won't carry the load  
Fairy tales and the fantasies there is no prince coming to save me.

With or with love I still end up alone...

Until you came along

I never wanted to fall in love just for my

Own protection (protection)

I wouldn't let my heart accept it...

But when you touched me I got infected (infected)

I made a promise to never fall and so far I thought I kept it

But my heart won't let me reject (reject) cause when he

Kissed me I got infected (infected)

With your love.

Now I'm right here watching you sleep

Never thought this would be me

My hearts been invaded and now I'm in your control

And when you hold tight it just feels so right

And I get butterflies when I meet your eyes

Tell me how did you get by, when I let no one inside,

and it Caught me by surprise when you

Came and infected me.

I never wanted to fall in love just for my own protection (protection)

I wouldn't let my heart accept it (accept it)

But when he touched me I got infected (infected)

I made a promise to never fall & so far I thought I kept it (kept it)

But my heart won't let me reject it (reject it)

Cause when he kissed me I got infected (I'm infected) with your love.

Like the ones you beleive I should be quaritined

The symptoms of your body start to weaken

The side effects are you may fall way to deep

Then you deny what your feeling is a feeling

You try & fight it but your gonna have to give in.

Whatever you had (had) you gave it to me (me)

Was immune to love (love) but you infected me  
Like the ones who believe now I should be quarantined?  
I was fine being blind but you made me see...

I never wanted to fall in love just for my own protection  
(protection)  
I wouldn't let my heart accept it (accept it)  
But when he touched me I got infected (infected)  
I made a promise to never fall & so far I thought I kept  
it (kept it)  
But my heart won't let me reject it (reject it)  
Cause when he kissed me I got infected (I'm infected)  
with your love
