First is gonna be your dream
it's your own fantasy
let yourself just be free

I am gonna live it
I am gonna have it
I am gonna do it

First
when you wanna take it
First
when you wanna get it
First
I just wanna hear you singin'
First
when you wanna take it
First
when you wanna get it
First, First, First

It can be a Paradise
flash and lights when you arrive
have a look and you'll know why

It's not a secret
not at all
everyone can go up and show
if that's your life
your heart must know

I am gonna live it
I am gonna have it
I am gonna do it

First
when you wanna take it
First
when you wanna get it
First
I just wanna hear you singin'

First

when you wanna take it
First
when you wanna get it
First, First, First

I just wanna be the...

First
when you wanna take it
First
when you wanna get it
First
I just wanna hear you singin'
First
when you wanna take it
First
when you wanna get it
First,
when you wanna take it
First,
when you wanna get it
First,
I just wanna hear you singin'
First,
when you wanna take it
First,
when you wanna get it,
First, First, First

First
when you wanna take it
First
when you wanna get it
First
I just wanna hear you singin'
First
when you wanna take it
First
when you wanna get it
First, First, First
