HOOK 2x:

Come with me, Christ Jesus brother
Run quick see, what do we have here now
Do you wanna live or die?

VERSE:

I ain't a sinner I'm a Christian
I keep my mind on Christ stay far from religion
Picture paragraphs unloaded, wise words being quoted
Peeped the realest in this rap game, believe it (Bow
Down)
Pray to God on my knees knowing that he's listening
This world is reversed, They should be asking for
opinion
Now pay attention, bless me father please I need your
peace
Cause your love is so divine that is so simple and kind
I'm bout to take that ride. you should come with me
Believe me, there ain't nothing clear as you can see
Let's go deep inside the solitary mind of a freeman
who saves
That's Jesus, My Savior, The Genius
My Mayor this world is possessed by demons
The sin virus is all over our feelings, no stress
It's a mess, ain't nothing left..except Christ Jesus
When are you gonna make a move to impress Christ
Jesus?

HOOK 2x:

Come with me, Christ Jesus brother
Run quick see, what do we have here now
Do you wanna live or die?

VERSE 2:

Brothers I'm packed before Christ comes back
Never realized the precious time to receive some snack
Would you rather live in fear or certainty
Wipe out your tears cause Christ is the key
guarantee!
You only got one life to live so depend on god
Start doing the good and stop the odd
Don't gain it all and still lose your soul
You need a mind control. To make you whole again
Like a Christian in a real life rolling man
Raise heaven to this real thing, praising him

One way, one trip, moving straight like a bullet
I let nothing come my way, Christ Side Get it!
To my Gisciples, my homeboys riding it!
Fighting and never give up, that's the truth ain't it
I'll keep my head up for C, get your eyes off me
We ain't quitting or crying, now walk with me brother!

HOOK 2x:

Come with me, Christ Jesus brother
Run quick see, what do we have here now
Do you wanna live or die?

VERSE 3:

Since my family run these streets, like these Jesus
freaks
I praise God for the church and the vision I seek
Meek as a mouse stead of sneaking around spying, it
ain't a technique of the way I speak
It's an everyday news but you gotta choose, to live for
God or to die and lose
Hold your head and stay up for the nasty streets
There's only one way up dealing with faith and peace

BRIDGE 2x:

If it's on then it's on, we break bad-breaks
Christ Jesus on my side, we won't lose that take
For the things I don't got, be the things I gotta take
Dealing with faith, Mighty God won't close the gate

HOOK 2x:

Come with me, Christ Jesus brother
Run quick see, what do we have here now
Do you wanna live or die?
