Yeah, Red Zone, ugh, ugh, uh, uh,
Don't stop don't stop cmon we could rock this party til
the break of dawn
Don't stop, don't stop cmon we could rock this party til
the break of dawn
Don't stop, don't stop cmon we could rock this party til
the break of dawn
Don't stop, don't stop cmon we could rock this party til
the break of dawn

I don't really know why you plain me
Gave you all of me and sometimes even more
I just wanna know why your love aint real
Boy you did me wrong let me show you how it's dealed

Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around
Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around

Now the girl is gone
Don't want u back no more
So why you callin me
My heart is out of reach
Now im movin out
My pain didn't last for long
All you put me through will come back to you

Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around
Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around

Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around
Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around

Ya ya what what Ima come to you town and throw me a
party
And have everybody singin ohh laddi daddi
It just wont stop and it just wont quit
Ima bring these girls cause you know that their lit
Ugh i got my truck and i got my bumps
I got the fly system and you know where it pumps
I like them hunnays with the fly skin tone
And when you know it on then it's on wit the Redzone

Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around
Now the love is gone and you left me all alone
You told me you wouldn't ever let it out
I told you once before and I'll tell you once again
Everything you do comes back around

It comes baby
It goes baby
It comes baby
It goes round and round, always goes back around

It comes baby
It goes baby
It comes baby
It goes round and round, always goes back around
