Ooh, ooh
No, oh

Hook
She could never be me
You've convinced to believe
If she's all you claim her to be
Tell me why you keep jocking me

Verse 1
You try to go out of your way, oh
To prove a point to me
That everything's okay
And even you were my mistake
And the love I took from you
Has quickly been replaced

Does she know in the midnight hour
You're callin' me
Should we tell her how you send me flowers
Don't want to play me
Cause when it gets down to it
You can't accept I up and left you
You never thought I'd do it
Now you're settling for second best, oh

Chorus

I see the little things you do, oh, oh
To try to get me looking like a fool
But she's no exception the rule, no
Too blind to realize that she's just being used

She doesn't know about if I blew up your pager,
(9-1-1)
And said to pack your things and leave her
(It would be done)
Cause when it gets down to it
You can't accept I up and left you
You never thought I'd do it
Now you're settling for second best, oh

Chorus

No matter how hard you try, no, no
You'll never find a love that's half as good as mine
So why should I waste time to go there?
Cause if you wanna another ? I don't care
What you do, or who you see
Since I set you free

No, no, no, no...
And I know she could never be me
And I know she could never be me
No, no, no, no...
Boy I gotta tell you SHE...

Chorus (2x)

No matter how hard you try, no, no
You'll never find a love that's half as good as mine
So why should I waste time to go there?
Cause if you wanna another ? I don't care
What you do, or who you see
Since I set you free
