The sun is shinin', makin' this room so bright  
And the cats are sleepin', right up on the table  
Breakin' all the rules in plain sight  
There's a cloud colored moon floatin' in the blue  
Not waitin' for the sun to go away  
I just wish I could walk with you and talk with you  
All the live long day.

We never really had a winter, it never came and now  
it's gone  
And the days grow longer, like a late night road  
Like the odds you'll come back home  
But I don't mind wasting my time  
Waitin' for the ache to go away  
I don't mind telling you it's what I do  
All the live long day.

All the live long day, I wonder what I'll do  
I don't see no way, of getting over you.

The boys were in the back field, sortin' out the who and  
when  
It's like cat graffiti, but they read it with their nose  
And it's written from the other end  
Though James takes it in with a different spin  
He likes to read the Sniff and Spray  
It's just them and me, and my emmui  
All the live long day.

All the live long day, I wonder what I'll do  
I don't see no way, of getting over you.

I was watchin' the sunset, wishin' you were watchin' too  
Through the winter branches  
Drop jaw red, Maxfield Parrish blue  
Then a windy night with the stars so bright  
The trees just bow and sway  
I been close to blue and missing you  
All the live long day.

I been close to blue and missing you  
All the live long day...
