Album "No Previous Record"

When in the course of human events  
Ladies get offers from high-powered gents  
Such as "Hey baby, would you please do this?"  
As they're standing there, dangling their units.

Well of course walk away, then wait several years  
And smile for the cameras and blink back the tears  
You can dream of the settlement offer  
While describing the anguish you've suffered.

That there are men who behave like that  
But we have troubles too many to mention  
That deserve our concern and attention  
And your glimpse of the Governor's Johnson  
Is emphatically not among them...
