(feat. Sole)

I've spent all my days, all my time

Thinkin' about you, baby

Now it's the things you do

That's got me feenin' for you, my baby, ooh...yeah

Give me what I want

And I will make you happy

I'll give you what you need

And we can make it happen

Don't you wait no longer

I can't take this, baby

Can I be with you

Don't you know you got me hopin', baby

You know I want you badly (Mmm, hmm) , baby

And you know you feel the same way too

I'm the one to keep you happy, baby

Just let me be down with you

Baby-baby-baby-baby-baby

Seven days I miss you

Seven nights you know I'm thinkin' about you

Now while we're wastin' time when you know you  
should

be mine

Stop fakin' 'cause you know you got it goin' on

You know (Uh) I want you badly, baby

You know you feel the same way too (Too)

I'm the one to keep you happy, baby

Just let me be down with you

Baby-baby-baby-baby-baby

You are the one I see in my fantasies

When I'm dreamin' (When I'm dreamin')

I'll be your everything (Everything)

If you get down with me, I'll give you what you need,  
baby

Uh, yeah  
You'll be beggin' me please, "Want you bad" on my  
hands on knees  
Got that fire, so you sweat when I take the T  
Get it hot, baby, don't drop, feel the breeze  
Get you sprung with the love shots I'll receive  
Do it well when I freak you  
If you comin' with ends then I'mma keep that  
Don't be waitin' too long or it will be gone be long  
Before Dark singin' a song, now bring it on, what

You know I want you badly, baby (I want you badly)  
You know you feel the same way too (You know)  
I'm the one to keep you happy, baby (Baby-baby)

Baby-baby-baby-baby-baby (I wanna be down, I gotta
