[music: Tuomas Saukkonen, words: Panu Willman]

Step inside in to my room, seems like ages I have  
waited you  
One more time in this room like friends  
Moments past a thousand times, we stood frozen from  
the lies  
Moments past a thousand times

Once I made my monsters die I can rest my thoughts  
tonight  
This what seems to be wrong is right once I made my  
monsters die

This my friend is to be last of times when I meaning  
you  
Step aside just to see the reasons  
Selfish thoughts become the needs, prepair what  
needed to be like new  
And many times I needed you
