And I don't think I've like to feel this,
I wanna make the craving stop now
so prior it now
there're forces coming down.
I like now
your self boder seem bunch are through.
And the carry bottles with messages
stop throwing marmaid at me.
And I has them all, the splendor of a worldming
having spoken, waiting for the right time,
now my cat is crossing waiting
laying in video

Save, join me
join me
join me
I wanna be
