Some will learn, many do
Cover up or spread it out
Turn around had enough
Pick and choose or pass it on
Buying in heading for
Suffer now or suffer then
It's bad enough, I want the fear
Need the fear cause he's alone
And he has become
He's alone
And he has become

(Chorus)

Well if they're making it (making it)
Then they're pushing it (pushing it)
And they're leading us along
The hassle of (hassle of)
All the screaming fits (screaming fits)
That panic makes remorse

After all, what's the point
Course levitation is possible
You're a fly, achieved and gone
There's time for this and so much more
It's typical create a world
A special place of my design
To never cope or never care
Just use the key cause he's alone
And he has become
He's alone
And he has become

(Chorus)

Well if they're making it (making it)
Then they're pushing it (pushing it)
And they're leading us along
The hassle of (hassle of)
All the screaming fits (screaming fits)
That panic makes remorse

(Bridge)

Over and over a slave became

Over and over a slave became
Over and over a slave became
Over and over it's slave

(Chorus)

Well if they're making it
Then they're pushing it
And they're leading us along
The hassle of
All the screaming fits
That panic held before
Well if they're making it
Then they're pushing it
And they're leading us along
Like the cancer
All the screaming fits
And their panic makes remorse
