Feela finger on my skin
I need you here
Don't ask when
Ever since last night
My heart's been cold
Pleses don't'say
I told you so

(chours)
When have I ever made
A mistake like this
When did you
Start to kiss then stop
The end of all things
Inncoent

Is coming
I'm second to last
Who's wondering
Something pulls me under
Just have to wonder

(chorus)

Might as well disapear
You've takin all I hold dear
Fighting for one last word
And I need to
Be heard...

(Chours)
