Chi Coltrane

I know I've hurt you  
And I wonder if you know  
That I never really meant to  
No I never really meant to  
Things have happened in my life  
Which have brought me to the way I am today  
Don't you know-- For you I'd gladly change  
Turn me around, turn me around  
Lead me to the place I should be found  
Turn me around, turn me around  
Lift me to higher ground  
If you really really want to

You know that you can mold me-- to you  
It would be so easy  
To give up and walk away  
But please don't let that happen  
We just cannot let that happen  
Things that I have done to you  
Have made you think that I don't really care  
How can I show you you I do?  
Turn me around, turn me around  
Lead me to the place I should be found  
Turn me around, turn me around  
Lift me to higher ground.
