If you only knew
How you made my day last night
When I saw you working at the bar

I walked in "surprise"
You looked like a movie star
Spilling all your beauty in people's glasses

(Chorus)
I don't care if you don't know me at all
I don't care, but do you mind?
That all I have is one request tonight
Please don't send me home with the wrong goodbye
Please don't send me home with the wrong goodbye

If you only knew
How I loved the atmosphere
As I sat and drank your everyglance

I was all alone
With some time and love to spare
While you drenched in wine all your new friends

(Chorus)

If you only knew
How I thought of you today
You opens a new room full of dreams

I swear you were there
Filling up my every plan
I even saw us dying hand in hand

(Chorus)
Please don't send me home with the wrong goodbye
Please don't send me home with the wrong goodbye
Please don't send me home with the wrong goodbye
