

Before The Dawn "Disappear"

Inhale
Breath inside infected air
Airborn cancer spreading everywhere
Starting to tear apart
Apart from flawless shell it's in our hearts
Disease that has been brought to a fine art
We unleashed
The flames of the end
Empyrium within
Is burning like pyre
We set the heaven on fire
Today I feel
I wish to disappear
Leave without a trace
Wish to become

A transparent one
A ghost under the sun
Betray
Broken trust you can't repair
We're just victims
There's no one to blame
First rule in this game
You play
Hide and seek of predators and preys
Our true nature
Revealed in godless ways
