Oh no no no  
You don't love for me no more  
Oh no no no  
You don't love for me no more  
Well you through my clothes out the window  
And down the road I go

Well I took you from the country  
And I brought you here to town  
You told me you don't love me  
And you gonna put me down  
But no, you don't love for me no more  
Well you through my clothes out the window  
And down the road I go

Well you told me that you love me  
And every word was true  
But you acted so funny woman  
I wonder what's wrong with you  
But no, you don't love for me no more  
Well you through my clothes out the window  
And down the road I go  
Down the road I go
