Because you're not just right here with me,  
I miss you  
Because it's hard to say the words "stay with me"  
I get to cry

And because I hear you say "stay with me,"  
I'm so happy  
All the things are because of you

\* You see, my heart shines bright  
You see, the moment we share shines bright  
You know, you make the things bright  
And now I wish you have peace of mind, mind  
Peace of mind

When your walks gets slow and weak,  
I stop to look  
When you look you need some help and cares,  
I sit beside you

And as long as you walk with me, I go with you  
All the things are just simple

\*Repete 2x
