Cleansed by Curse

On the depth of cold blue sea  
Where the sunrays won't go through  
We have left the memories  
Our pride and misery

Who can tell me why we care  
Only when we lose the breath  
Why we're weeping if it's late  
It's our fate...

Chorus:  
We made them saints  
But they don't care  
They're cleansed by curse  
And I don't see obscuring lie  
Who tells me why  
We buried the "Kursk"?

We've got used to feel regret  
When the angel take our dead  
We just speaking useless words  
Our mistakes are worth and worth  
We are sorry, but they not  
Who needs our apologies?  
We continue live in lie  
We don't deserve forgiveness...

Chorus:
