Get Loved

I'm bleeding just like You
I see your angels' fall
The people You create
Do their live in blindness

They're filled up with their pride
And stupid ideals
You teach to love them all
But I can't find for what...

...Bleeding just for nothing...
...Burning just for no one...

Chorus:
[Get loved] Contradiction, false religion
Where is the faith I should believe in?
[Get loved] Sect offensive, mass psychosis
People watch indifferently
[Get loved] Church insulting, profanation
I don't see somebody's crying
If the angels wings are numb with cold
I don't wanna live here anymore...

Why should I live among the blind?
Their attitude is suicide
Why should I care about this crowd?
They feel the only that they want

Disappointment
Misconception
Misanthropy
Self destruction

...Hey, Father, tell me why
You were crucified?..
