State of Gothique

I feel you in my vein
I feel you more than pain
You whisper like the rain
...Inside of me...
I feel your senseless rays
When nothing more to say
When nothing left to lose
...

Chorus:

I feel - I don't want to be close to you
I know - You want to poison me
I hate - Your virulent looks
At my experience...

State of gothique tenderly throws me away
To another demension of lifeless skies
To another demension of vacant eyes
To another embodiment of the odium

Your nails are tearing soul off me
You force me feel it more than real
You penetrate inside my mind
...With ugly smile...

I have no power to resist
I have no reason to exist
State of gothique is cover me
...With autumn leaves...

Chorus:

State of gothique tenderly throws me away
To another demension of lifeless skies
To another demension of vacant eyes
To another embodiment of the odium

State of gothique sadly lick me again
With a poisonous tonque of melancholic lie
With a poisonous tonque from vanishing light
With a poisonous tonque of the broken hope
