Dressed in candles a chilly light
She is hanging around in the sky
Sending her warmth to me
Sending her message to me
I want to be her man
Forever...
And for all times
A twinkling light
And there she stands beside me
As sweet as the spring
Opening her arms to encompass me

My adoring Astraia
Astraia
I have been looking for aeons
To find you here
Together we seem one of a kind
A feeling flows like the ebbing time
Filling up my empty chest
I want to be her man
Forever...
And for all times
