

## Children Within "Collective Minds"

Visit "[Collective Minds](#)" on MotoLyrics.com

A uniform motion  
Propagating like a wave  
Through the shoal  
On the vigorous reef  
And I'm in control  
I live and I think  
With my neutral net of fish  
You look at me as many and  
To eat me is you wish  
Strange as it might seem  
We've been evolving from one cell  
You turned left where  
I turned right and  
I'm back in hell  
I breed and I breed  
To expand my memory  
Yet everywhere I turn to  
I will end up in your net

Collective mind  
Unite in time  
Synchronicity  
Leads you to it  
You strive and you search for  
A similar pattern  
Crystallizing over time  
As you observe, your knowledge  
Grows and you're in control  
You live and you learn  
Interaction is my sword  
Through every single meeting  
You will end up in concord  
Collective mind  
Unite in time  
Synchronicity  
Leads you to it  
You strive and you search for
