

## Children Within

### "Connected to eachother"

Visit "[Connected to eachother](#)" on MotoLyrics.com

Two minds become one  
Connected to eachother and we share the same soul  
Nothing in the world can make us feel so whole  
An umbilical cord between  
Made us share the same dream  
When two minds become one

What can be imagined  
Can be achieved  
It all comes down to what you want to believe

I will carry it with me in my memory

I believe in years of wonder love and laughter  
Hope to stay with you  
We move as one  
We breath as two

When two minds become one  
Connected to eachother and we share the same soul  
Nothing in the world can make us feel so whole  
An umbilical cord between  
Made us share the same dream  
When two minds become one

What can be imagined  
Can be achieved  
It all comes down to what you want to believe

I will carry it with me in my memory
