This is time out I leave the game  
My love insurance overdue  
Put every penny in one bet  
You will remember to forget  
There's nothing there that's mine to take  
Except myself and my mistake  
There is no meaning no way out  
A broken dream is my reward  
When all we struggled for is dead  
The path I went you were mislead  
My love for you will change someday  
But until then just go away  
My love insurance overdue  
It's time to leave the game  
My love insurance overdue  
It's time to leave the game

I tried too hard to get it right  
But it was way out of my league  
A miracle is what I need  
To be eaten or to feed  
And to get back my peace of mind  
That always seem so hard to find  
Another day  
No matter when  
Never again  
Another friend  
When I get lost  
I won't return  
Reclaim my soul  
For you I burn  
My love insurance overdue  
It's time to leave the game  
My love insurance overdue  
It's time to leave the game
