

Children Within "Paradise"

Visit "[Paradise](#)" on MotoLyrics.com

Spend the time with the one who adore you
A paradise can't fall
It's really a victory for the peace of mind
Hear the chime and the bells when they call you
The very own tune of yours
Though you never heard before
It's there for you
Short glimpses reflects on life
Floating peacefully away
Passing away
The implement withers once again
Another phase in life and death
An eternal cycle for everyone

For you and me
Let your past fade away and believe it
Impressions here are weird
Can you imagine a world of light
You may call it a dream and ignore it
When you wake up again
You find yourself as the son of you daughter
The implement withers once again
Another phase in life and death
An eternal cycle for everyone
For you and me
