

## Children Within "Singularity"

Visit "[Singularity](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We are flying  
Beyond the speed of light  
Exploring space in an endless night  
Swimming around among celestial things  
We'll never know what this trip will bring  
Trapped in a stream  
Attracted to a black hole  
To the end of time  
Imprisoning our bright soul  
A sinking feeling  
Strong forces pulling us  
We lose control as we come too near  
A place where even the smallest light  
Is being extinguished instantly  
Trapped in a stream

Attracted to a black hole  
To the end of time  
Imprisoning our bright soul  
Entering a timeless zone  
Lost but still without fear  
Shrinking to nothing  
We all feel free  
Free at last  
Surprised to find  
A way out  
To a strange and mysterious world  
Nothing familiar for us to see  
Nothing familiar  
Trapped in a stream  
Attracted to a black hole  
To the end of time  
Imprisoning our bright soul
