He was a first class star with memories of fame  
In mind he never left the game  
He'd been around the world and people knew his trade  
In mind his light will never fade  
Spotlight, spotlight here I am  
Hard to stay in focus  
Spotlight, spotlight here I am  
Hard to stay in focus  
Now is a different time with people moving on

Forgetting his once famous song  
He made a great career success was crystal clear  
With failure as the greatest fear  
Spotlight, spotlight here I am  
Hard to stay in focus  
Spotlight, spotlight here I am  
Hard to stay in focus
