

Children Within "Where Are You?"

Visit "[Where Are You?](#)" on MotoLyrics.com

Where are you
The hope I had is gone
Who am I to question how you feel
Do you want to sleep here next to me
Love is easy, easy as can be
I was happy but now I'm sad
Sharing our lives was never bad
Your emotions left and so did you
The dream we had didn't come true
You are lost
Still live inside my head

I'm like air
To you I could be dead
My heart still bleeds
It's easy to detect
Small words you write
Can have a strange effect
I was happy but now I'm sad
Sharing our lives was never bad
Your emotions left and so did you
The dream we had didn't come true
