You're a human thing  
You're a human thing  
Who yah think that you're foolin'?  
Who yah think that you're foolin'?  
You're not foolin', not foolin' me

You're a human thing  
You're a human thing  
You're so busy frontin'  
Confusin' courage and acting

Move me, move me  
Could it really be so wrong?  
To let somebody, somebody see  
Move me, come move me

A girl can keep it together  
A girl can keep it together  
Girl, come on now, you know you we like your weather  
But come on now, you know we'll take the weather

You got roots cannot be torn from under  
Won't you shake it like you've never done before?  
You've got roots cannot be torn from under  
Won't you shake it like you've never done before?

You're a human thing  
You're a human thing
