[Chingon]

(Verse 1)

She's so sexy

Can't wait til she lets me

Sexiest thing, never seen the basics

To me

She means to me the world

My queen, I've seen in my dreams, is my girl

Roses on the bed

Roses, where they bed {\*wolf whistle\*}

Lingerie, many ways to undress

And just to caress

She lets me feel every curve

Til I hit a nerve

Then it's time to serve

Watch me work it

Yeah, baby, work it

Easy does it (Easy does it)

Softly rubs it

Thought it was when it wasn't

I knew she'd love it

The way she hug me

Ever so gently, (???)

Insist we

Proceed

Together, we knead

Wanna plant a seed

To live in luxury, for the fantasy

Everlasting

Chorus: Chingon

She's so sexy to me

Please, baby, to me

You in the world, would you be my girl

She's so sexy to me

Please, baby, to me

You in the world, would you be my girl

So sexy, sexy

(Verse 2)

Watch me write a rhyme, cause tonight, you're mine

What's your sign, how about, we combine  
Some of mine with some of yours, but that's none of  
yours  
But of course, baby doll, it's whatever you say  
Mamacita  
It's your call (Your call)  
And you can have it all, from the second I laid eyes on  
you  
Love at first, for better, for worse  
Forever and ever  
Together is better, write you a letter  
And I'm glad I met her (What's up)  
Seen down the block  
With my arm around you  
Pumpin' that sounds, feel the beats around you  
Me and you  
Love it when I tease you, love it when I please you  
Then sees you  
Never stops seeing you  
You know I got good thangs (Good thangs)  
So what you wanna do?  
Just me and you, baby  
Stay true  
Forever, my lady

Repeat Chorus

(Verse 3)

Everything that a lady could have, a man wants  
Good look, the walk, the talk, the way she walks  
Makes a man stop, take a second glance (What?)  
If I could only get one little chance  
The curves on your body with them tight ass pants  
Make me wanna do you up, when I see you dance  
The way you gettin' a stance, baby girl, what's up  
Love it up  
Live it up  
Give it up to me  
We could live in luxury, ma, me, you and me  
Especially, if it's meant to be  
And you're meant for me  
And eventually  
Would bother me  
You look so sweet  
So sexy (So sweet)  
From your head to your feet (Yeah)  
So what you wanna do, all night, yeah, me and you  
You know that I want you  
And I know you want me  
So what's up

Repeat Chorus Twice
