Baby don't you want to leave this VIP
And finish off this party in my hotel suite
Girl just follow me because I got room keys
Sex, red bull and belve, we be like

I pull up on the light and I fell up in the spot
Saint Louis can't talk tryin' to find somethin' hot
Drink in my hand hundreds in my pocket
I don't curr if he ur man understand I'm ur profit

It's 2:39, we should leave by 3
We can stroll around an' go get something to eat
Outside I got a flat drop, you hungry?
Round your girls up and we can all go to I hop

You prolly think I'm tryna cut and maybe you're right
You don't like one night stands? Well baby the night
I got a presidential suite at the Ritz
Everything on me, huh ain't that a hushhhhh

Baby don't you want to leave this VIP
And finish off this party in my hotel suite
Girl just follow me because I got room keys
Sex, red bull and belve, we be like

You actin' like you don't hurr me, come nurr me quick
Bacon, and take a puff of this green from Jamaica
Just bought a new yacht with 4 rooms and a bar
No you're not that used to bein' around a hood star

My papa told me good girls always go fast
So if I touch her right thurr ain't no need to get mad
I could take you from the club to paradise
Used to my chicks, I like them thick plus naughty and nice

The way you sweep me off my feet, you should be a
broom
The way you smell, shoulda had ur own perfume
So knock knock
Who's thurr?
Jackpot

Tthat's hot

Ran with the old head so, fuck the sex
Do it tickle when I lick your neck better get you wet
Lookin' at your sexy ass make me wanna write a check

Baby don't you want to leave this VIP
And finish off this party in my hotel suite
Girl just follow me because I got room keys
Sex, red bull and belve, we be like

I know she like it from the back and from the front
I know you like it off the yak and on the blunt
I know you wanna ride around lets go 'bout the town
You know you claim of bein' on top an goin' down

So show a little somethin'
Whisper in my ear and let me know a little somethin'
You workin' that body
Well throw a little something over here where I'm at

Girl I got too much pride to be chasin' the cat
But I like how that lingerie fit
Shit, I got enough game to hit Queen Elizabeth
My blood blue so you know I'm royalty
I'm through with catering to all you girls spoil me, you did

Baby don't you want to leave this VIP
And finish off this party in my hotel suite
Girl just follow me because I got room keys
Sex, red bull and belve, we be like

Now hold on the way you put it on me now
Hold on I love the way you shake it
Now hold on you drop it then you pick it up
Hold on girl you got me goin' what the

Baby don't you want to leave this VIP
And finish off this party in my hotel suite
Girl just follow me because I got room keys
Sex, red bull and belve, we be like
