(feat. Tyrese)

[Chorus]

Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
Every time I try to go
Something keeps telling me that, me that
Everything gon' be alright
Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
It was meant to be
You were meant for me
So that means we gotta make it work

[Verse 1]

It was all good at first,
Spending money, going shopping
Eating at the finest restaurants
And if I'm club hopping
She was right thurr with me bottle popping living that
life
She just didn't understand my lifestyle and that I don't
like
We didn't have a worry in the world, got u diamonds
got u pearls
But I can't help it if Ching-A-Ling be attracting all the
girls
Baby I'm a superstar and that come wit it
You got a good nigga on the side, you betta run wit it,
Even though I'm on the road doing shows,
I make time for me n her, relationship to grow
They tell me don't trust a woman in this industry
But she not any woman, more like a sacred friend to
me
Plus, when I'm outta town, always think of her
Might conversate with some chicks, but no one come
above her,
(Uh) I thought I was your man
Guess u ain't understand,
N now I'm sitting here, looking crazy like

Damn!

[Chorus]

Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
Every time I try to go
Something keeps telling me that, me that
Everything gon' be alright
Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
It was meant to be,
You were meant for me,
So that means we gotta make it work

[Verse 2]

Walk in the house from hard work, my head hurts,
Instead of arguing, can I have dinner with some
dessert (uh uh)
She talking 'bout this phone number she found,
Hey, give me time to put my bags down,
She's straight up, clowning

Before we end up fighting, let me leave,
I'm exhausted and dis hurt, I don't need
Now I'm wit the fellas riding 'n' drinking
She's blowing my two way up but I need some time for
thinking
(Yeah) I wanna go back, but something saying naaaw
Give her some space and the next day I might call
What should I do
Look, let me ask ya'll
Should I stand tall, or let this relationship fall
I ain't down on with having my feelings crushed
But it happens sometimes
Either love it or give it up
I thought I was your man
Guess u ain't understand
N now I'm sittin' here looking crazy like
Damn!

[Chorus]

Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
Every time I try to go
Something keeps telling me that, me that
Everything gon' be alright
Every time I try to leave
Something keeps pulling me back, me back

Telling me I need you in my life
It was meant to be,
You were meant for me,
So that means we gotta make it work

[JD:] Chingy holla at dem again !!

[Verse 3]

Ta all the fellas know u feel me, if you ever had a
woman,
Good times led to bad times n u ain't see it coming,
Tried your best to make her happy,
But it wasn't enough,
Cuz mama told me in relationship the road gets rough
N I ain't the one to have my head down
Weak n stressed out
As bad as it hurts I gotta move to the next route
(Uh) I thought I was her man
Guess she ain't understand
N now she's sittin' here looking crazy like
Damn!

[Chorus]

Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
Every time I try to go
Something keeps telling me that, me that
Everything gon' be alright
Every time I try to leave
Something keeps pulling me back, me back
Telling me I need u in my life
It was meant to be,
You were meant for me,
So that means we gotta make it work
