Throw yo hood up if you representing
(North side, West side, South side, East side)
On my side ain't nothing but hustlas baby
Throw yo hood up if you representing
(West side, North side, East side, South side)
On my side ain't nothing but gangstas, baby
Throw yo hood up if you representing

Gangsta as a Cadillac DeVille wit fo's
This for all my thundercats that feel my flow
To slang weight, my young guns will steal ya o's
Catch a belling down Lukerson and Hunt de-real a ho

In ya top piece, suburb mart, ya not street
I know fools from Wilson that'll whack ya, ya got beef
Used to go to Skate King back when bangin' was in
And if the fiends ain't have 20, we would slang it for 10

Drankin' the gin, posted on the corners at night
Sparkin' pound while my homies in the street, slap fight
Ride bikes, patrolin' the hood, keepin' out cops
Regals and drops, reppin' 'cuz beak in my block

Wild like rocks, my mentality got from my pops
And saints, bustin' back in '90 hope you got from the
shots
Put it down for the town and I gang wit us
St. Louis did it dirty, throw yo hood up did you know we
from the

Throw yo hood up if you representin'

Tity-Boi, South side

Bad limp, fo' 5's on the hip

Don't know why I'm known to slip when I get high

One time but no more, won't sleep until the morning

Somebody need to take the trash out and I ma do the chores

Softer than a cactus, put it on like actors

Hustle in the shadows on the bricks and they couldn't catch us

Gat still tucked, in my waist by my price time

'Cuz my chain hang so low my charm bang wit my pipe line

Walk around, all day wit this beam like it's night time

You can see em a mile away, but it'll touch ya from blind side

Flipped it, first to finish to the car, that's a nice ride

Dig it, they spin they purchase round here they get kite high

Deal it, it's my description, my picture, my composure plot

This is how I get through 2 d's, niggaz

My side we ride my crew's, iller, iller

Throw yo hood up if you representing

(North side, West side, South side, East side)

On my side ain't nothing but hustlas, baby

Throw yo hood up if you representing

Who done bust through the vapon yeah, I'm hopin' to fight

Start a brawl, I'll shut that bitch down on openin' night

Let's fate, pull the bitches titties start on them dipes

'Cause we leavin' wit some hoes and yeah we startin' wit dykes

Bet a thousand, shoot a thousand if you holdin' that

bank

I got the game on lock, you barely a holdin' tank
Get drunk, get to shootin' bust the whole club out
Us thugs out, I'm tryin' to dumb out, 'til I get drunk out

That's just the way I am, don't look down on me
My gun's a open bar, free rounds on me
And I'm an East side nigga so I ain't no punk
I make the crowd get it crunk and do the East side
stomp

Young Chingy let 'em know, that the deal is a fool
And I'm a carpenter's dream, I'm in love wit the tools
Lay low when the heat bust, off in the air
DTP, Cris squad and we runnin' this here, it go
