Ain't no stoppin' we're gonna keep on rockin'
There's no stoppin' us

Used to be so blind, but now I see
What you were doing, doing to me
Trying to take my money, trying to take my soul
Trying to take my future, trying to take control

You did us wrong, but we stayed strong
We're gonna do it all over again, it's a fact we are back

Now we've just begun, doing our own thing
We're here to tell you that there ain't no stoppin'
E-1-7 is about to be dropping
It's on and on, cause I've got my future
And now I'm in control
