I came from the London underground  
Then I took my sound and spread it over ground  
Yes I'm leveling over clouds  
I'm on top but holding it down  
The kings sat in his throne  
My heads too big for a crown  
L o l you can laugh out loud  
S o s they wanna send out  
Try call for help or something?  
Proventions cure my cousin  
Prevent this beef from buzzin  
I'm the beast that elevated from the street  
And Una yea I must feel I beg you talk to them there  
weak

[Chorus]

Oh I'm coming from under the ground  
Tonight I'm coming up to take it down  
I'm free coming deep from the sleep  
Now I've woken up,  
that's why they call me the beast baby get to know [x2]

I roll around grinning my teeth  
Yea I am the prettiest beast  
I grew out of the grittiest streets  
I grew out a team that started on heat  
4 years down the line I'm here  
4 years down the line your there  
I just laugh at those who strayed off  
I'm proof that hard work pays off  
On rined that road I stayed off  
I became that beast with this heart  
I aim for the movement  
See you around stars  
You hear me and know that the swaggers to hard  
They can hear the fire in me on the stations  
Spit to anger or my passion or that bound  
determination

I was the underdog on the underground  
I'm taking over town  
They was laughing at me then but you tell me who's  
laughing now  
I'm sitting on hits  
The baby's stuck in dippers sitting on shit  
I take the piss  
There actually pissed  
Like how did he get that far?  
Rar I just kick back and laugh  
I'm proof that underdogs can make it  
If you get that chance then take it  
Don't let talent get wasted  
I'm the product of the streets  
With some anger and some beats  
Precisely why dint they just call in I am beast
