### Diamond Rings

I rhyme rhyme, that's why I shine shine,  
And you can roll anyone of my shows,  
No lights in my bag no eye sight  
I gotta keep on rhyming man,  
So I keep on shining man  
I ain't gonna be a one hit wonder,  
I am forever, call me diamond man,

I've been talking about my new diamond rings  
Because my new diamond rings there the shit  
Oh oh oh you've been talking about my new diamond  
rings  
Because my new diamond rings,  
They're what's in  
And if you're looking at me,  
Then you gon' be looking at them  
Cause there the swagga that you see in my walk  
And if you're listening to me,  
You gon' be listening to them  
Cause they're the slick that you hear in my talk

Hit me one screen, westend  
(Diamonds) shine like I'm a girl's best friend (diamonds)  
Girls see me and scream cause I'm on the tv,  
But I still take walks in my ends  
14 when I entered the game  
All I wanted was a little bit of fame  
And now I'm fuckin' with the grown-ups  
Go mad like shit I forgot my age  
Oh chipmunk you're so cute  
I'ma call you the diamond dude  
And my rings got so many carats  
And you usually call this rabbit food  
And the sales is custom made  
No water involved I pay  
Good lord I remember the days  
I pray for roll your car e-ayeee

I've been talking about my new diamond rings  
Because my new diamond rings there the shit

Oh oh oh you've been talkin bout my new diamond  
rings  
Because my new diamond rings,  
They're what's in  
And if your looking at me,  
Then you gon' be looking at them  
Cause there the swagga that you see in my walk  
And if your listening to me,  
You going to be listening to them  
Cause there the slik that you hear in my tone

Aye uh see I'm such a classy guy  
Designer shades hide my eyes  
I look good with a face like mine  
How the hell could I be camera shy  
I make it look easy man  
But that don't mean it's easy man (no it aint)  
Got my middle finger up to the world  
With a ring on the thing cause I froze my hand  
Yea in that position, right back clear your position  
I'm everythin your not, you work I'm the boss  
I revrent run this man  
I could turn your house into mine  
And I could turn your girl into mine(one time)  
Imma stay in my grind you could be in my life  
And never let a bitch take my shine

I've been talking about my new diamond rings  
Because my new diamond rings there the shit  
Oh oh oh you've been talkin bout my new diamond  
rings  
Because my new diamond rings,  
Their what's in  
And if your looking at me,  
Then you gon be looking at them  
Cause there the swagger that you see in my walk  
And if your listening to me,  
You gon' be listening to them  
Cause there the slick that you hear in my talk
