Lie, why did she leave me?  
I didnt do much wrong  
I said I wern't cheating  
She didn't believe me  
But it's clear she's moved on  
Her friends said she don't want me no more  
Word is...  
She got a new man  
I'm stuck, strung up like T-pain  
Didn't know that I felt so deep man  
Cupid shot me, I'm left with a hole in my heart  
Guess I'm just stuck in the dark  
Looking for light, but ain't looking right  
She's got my mind tearing apart  
I shouldn't have ended it  
But my heart split  
No chicks mending it  
Like shes got a new hubs  
I feel so dumb this ain't the word for it

(Seems like your hanging on to the past too long  
She's gone time to move on  
Life is passing you by  
Close your eyes  
Say goodnight  
It's time to say goodbye  
'Cause, you...)

You never know what you got 'til it's gone  
But now she's gone I know what I had  
Wifey material  
I treated her bad  
Playing with feelings and leaving her sad  
I don't know why I insist on playing games  
She begged me...  
Please stop playing games  
Now she's moved on and  
I'm stuck  
SHES GONE!  
And I ain't even playing games  
So now I'm pissed but not off malibu

I'm messed up with some other dude  
Me hurting her has hurt me  
Get back with her I wanna do  
But I can't because I got too much pride to ask  
her...come back into my life

(Seems like your hanging on to the past too long  
Shes gone time to move on  
Life is passing you by  
Close your eyes  
Say goodnight  
It's time to say goodbye  
to you...)

If I could turn back the hands of time  
She would still be mine  
I wouldn't be here remembering  
To have her back I'm wishing  
Think back to the times she would hug me  
Give me kisses and tell me she loved me  
She probably does that with her new man  
I swear it's starting to bug me  
I'm hanging on to the past too long  
But my feelings are way too strong  
I wish I could close my eyes and say goodbye  
And then she'll be gone  
But when I close my eyes I see her  
It's like she's inside of my eyelids  
I see her when I sleep  
See her when I blink  
Look, I need my baby back!

(Seems like your hanging on to the past too long  
Shes gone time to move on  
Life is passing you by  
Close your eyes  
Say goodnight  
it's time to say goodbye  
to you...) x2

(spoken)  
You know them ones like  
where like  
I'm saying like so much  
And I'm not even using similies bruv  
where your girls just like  
like GONE!  
And your feelings are still there  
And all that but you can't say nothing  
Because you like  
You got too much pride

If it's that then  
Your in my shoes
