Whatever you need baby

Baby you don't ever have to be afraid
Surrender to me for anything that you want
Cause you're my lady and you don't even need to go to
work
Cause I got your act in so many ways

We'll spend some time
Relax a while and we won't think of no one else
I'll put you before myself
I'll never find another girl like you
Who can love me like you do
So I can give my love to you

Whatever you need baby (whatever you need baby)
To keep you satisfied
Whatever it takes to keep you smiling
Whatever you need baby
To keep you by my side
Whatever it takes to keep you smiling

You're the kind of lady
Who knows just what she wants
Said you're strong in a sexy kind of way
You don't care about those things
Fancy cars and diamond rings
It's all about the love that I bring
