Uh-huh, yeah

DJ:

As I woke up this mornin' and I looked in the mirror

(hey!)

The message that I saw couldn't get any clearer (no-

oo!)

The one conclusion of what defines me

(oh!)

Is everything I am is a great thing to be

Chipmunks:

C-H-I-P-M-U-N-K

What's in a name?

Well, it's all we are

Who we'll be

See, it's everything

We got the rhythm, got the music in us

Never really mattered what breed we are

We're little, we're brown, we're different

Here's a little bit about acceptance

Whoever you are

Wherever you live

Whatever you look like

Whatever it is

The person you see

Is just a skin

All of the good stuff

Ain't out, it's in

DJ:

You know, I heard that people who judge you don't matter

And so I feel like those who love you won't chatter

Long as I know you take me for me

'Cause everything I am is a great thing to be

Chipmunks:

I ain't never seen

Anyone look a thing like me
But, still, I'm never shy,
Because I know it's all about what's up inside

We got the rhythm, got the music in us

Never really mattered what breed we are
We're little, we're brown, we're different
And here's a little bit about acceptance

Whoever you are
Wherever you live
Whatever you look like
Whatever it is

The person you see
Is just a skin
All of the good stuff
Ain't out, it's in

DJ:
This is the moment of truth
I give it all that I've got with no additional proof
I put my cards on the table and deal
In other words only worry about what's real
'Cause people say this
(this!)
And people say that
(that!)
But I've been bein' Chris ever since way back
(Way back)
And maybe if you focus you can get like me
'Cause everythin' you are is a great thing to be

Chipmunks:
Whoever you are
Wherever you live
Whatever you look like
Whatever it is

The person you see
Is just a skin
All of the good stuff
Ain't out, it's in

(fade out)
