I thought that i knew how, to keep these thoughts of
you in the depths of my mind.
But like you always do, you keep on pushing your way
through, until all I see is you!
There's no escape, from these stupid games you play,
and I need you know,
I can't live without you, gotta be around you, I need you
to stay
I can't live without you, gotta be around you, i need you
to stay with me.
Now i sit around, take photos off the walls, and smash
them on the ground
as I look at you, through broken glass i see the truth,
you took a piece of me with you!
There's no escape from these stupid games you play,
and i need you know!
I can't live without you, gotta be around you, I need you
to stay
I can't live without you, gotta be around you, I need you
to stay with me.
(i can't live without you) gotta be around you, I need
you to stay
I can't live without you, gotta be around you, I need you
to stay
I can't live without you, gotta be around you, I need you
to stay with me
(I can't live without you, gotta be around you, I need
you to stay)
