Chandra fucked my loneliness away
At least for a minute or two, lemonade
I just fucked my loneliness away
It helped me for a minute or two, a lemonade

I just beat my loneliness away
It helped me for a minute or two, a lemonade
She is another way to feed that slow

Chandra fucked my loneliness away
At least for a minute or two, a lemonade
I just fucked my loneliness away
It helped me for a minute or two, a lemonade

I just beat my loneliness away
Nothing else left here to do, a lemonade
