Scum who sit high, emanating bullshit  
Empty vessels look up waiting to be sated.

With a callous disregard of human life  
It grinds us up like meat.

Filled to the brim, going of like warheads  
Exploding in hate, create our own extinction

With a callous disregard of human life

It grinds us up like meat.

With no foundation, no fools to hold high  
Those who controlled us alongside us shall grind

Cheat us of a chance used up and spat out  
Obeying scumbags  
Playing with our lives
