Hidden behind a wall of secrecy and right in our own  
backyard  
In fort Benning, Georgia lies the pentagons prize  
Well protected behind gun and guard  
It's the training ground for counter insurgency  
For the Latin American and Caribbean countries  
Specializing in psychological warfare and  
assassinations  
And repression of the people in their own nations  
Here comes the death squad  
American made  
An army of butchers  
Product of the S.O.A.  
American interests are protected by this machine of  
death  
The School of Americas provides the muscle  
They're the enforcers of the policies of the World bank  
and the I.M.F.  
They commit atrocities for American globalization  
And profits for multinational corporations  
At the expense of the people who don't adhere  
And are subjected to torture then disappear  
Here comes the death squad  
American made  
An army of butchers  
Product of the S.O.A.  
With the school now under fire from human rights  
advocates  
The pentagon's official action has been to change the  
name  
So it could continue its mission and operation  
Nice new image for the same old game  
But with every human rights violation the opposition  
grows  
And it won't let up until the S.O.A. is closed  
So you can keep on arresting those who cross the  
protest line  
But you can't cover up who's really committing the  
crime  
With almost 60,000 graduates from 23 countries  
Responsible for some of the most notorious crimes  
against humanity

Like the massacres that were committed in El  
Salvador's civil war  
Or the 30,000 people slaughtered in Argentina's 'dirty  
war'  
America has created a monster from which no one is  
safe  
And it will continue to assassinate, torture and rape  
Until we take responsibility and say enough is enough  
Since every bit of their training has been funded by us  
Here comes the death squad  
American made  
An army of butchers  
Product of the S.O.A.
